

FOURTH FLOOR

Exploration Station

Explore Forces of Nature—step into the Earthquake Café, host a weather report, control a 4-ft. tornado, or challenge your friends to a solar drag race. Create an animation clip, star in a game show about energy, and more. Children ages 3–6 will have a ball at Exploration Station Jr., with a water table, construction zone, climbing area, and observation deck. Also, see ZAP! Jr., where kids can explore the world of medical science and the body.

Works Theater

Spark your imagination in this live demonstration theater. Check the schedule for show times.

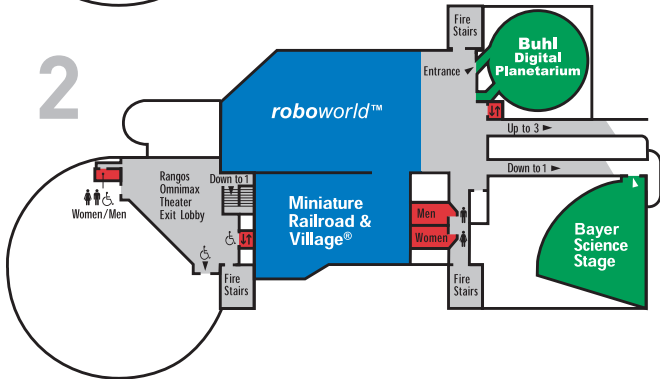

THIRD FLOOR

SeaScope

Get up close and personal with lots of amazing sea creatures in our 2,000 gallon aquarium. See if you can find a clown fish, sea horses, upside-down jellyfish, and more. Travel the globe with the touch of your fingers! Use Google Earth to zoom in and out on virtually any location on the planet using 3D satellite images. Try finding your favorite place to go on vacation, or where you live!

Kitchen Theater

Discover science you can eat in this hands-on demonstration theater. Check the schedule for show times.

SECOND FLOOR

Buhl Digital Planetarium

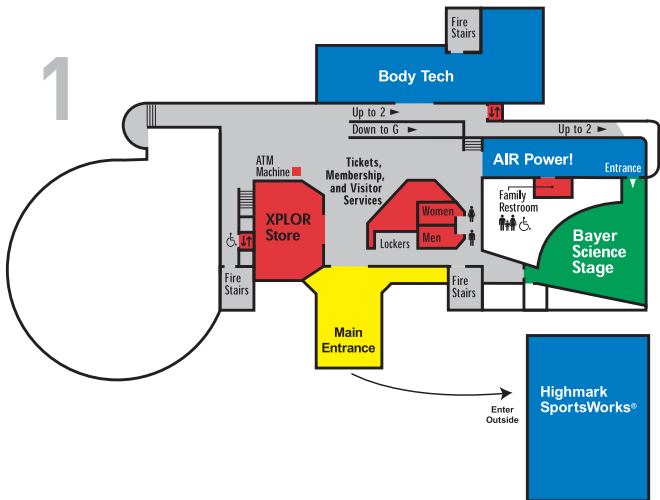

Explore Mars, navigate the stars, or journey through the mysteries of the cosmos. Blast off for an exhilarating new planetarium experience. Check the schedule for show times. Ask about special programs in our rooftop observatory.

Miniature Railroad & Village®

Speeding locomotives travel western Pennsylvania's landscape, winding through 2,000 miniature replicas and more than 100 animated characters and scenes.

roboworld™

Gear up for a bot-tastic time with more than two dozen hands-on exhibits all about how robots sense, think, and act. Plus, get your photo taken with some of Hollywood's favorite binary beings.

FIRST FLOOR

XPLOR Store

Take the Science Center home with you! Choose from a wide selection of books, games, toys, microscopes, and a variety of telescopes selected by our expert staff.

Body Tech

Get your hands on gamma rays, lasers, and x-rays! Simulate procedures that doctors use. Learn about tissue engineering through video games, cool touch screens, and more!

AIR Power!

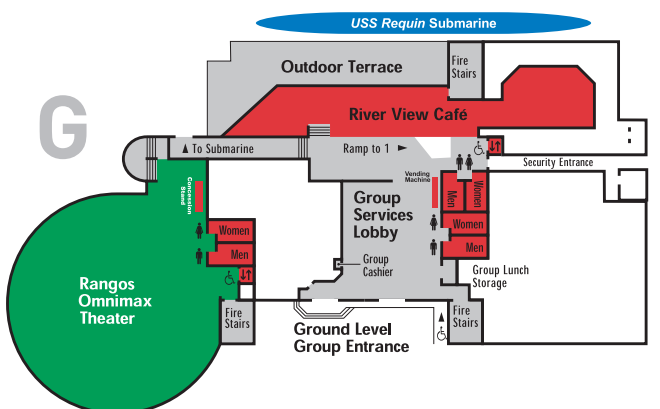

Get swept up in this exhibition! Shoot a rocket sky-high, launch a parachute, blast an air cannon, and get aero-dynamic in your own drag race.

Bayer Science Stage

Get into the act as science comes alive in this participation demonstration theater. Check the schedule for show times.

Highmark SportsWorks®

Roll, bounce, climb, and run into a building all about science and sports, fitness, and nutrition.

GROUND FLOOR

Rangos Omnimax Theater

A four-story, dome theater, the Rangos Omnimax Theater features the BIGGEST screen in Pittsburgh and takes you on larger-than-life adventures all around the world. Check the schedule for show times.

River View Café

Fun and tasty food in an informal setting. Enjoy sandwiches, soup, salads, hot entrees, desserts, and snacks. Sit outside and enjoy the beautiful view of downtown Pittsburgh!

USS Requin Submarine

Climb aboard a real Cold War-era submarine. Then go below deck, and experience the life of a crew member. Full mobility is required to experience this exhibit.
